Best Start Puppy Plans

What can our Health Care Plan do for you and your puppy?

Congratulations on your new puppy! Our puppy plans are designed to provide cost savings and to help ensure that your puppy receives the preventative care they need to get off to a great start.

up to \$ 700 in savings

Puppy Neuter Plan

*12 Payments of \$98.75/month
(taxes extra)*

Puppy Spay Plan

*12 Payments of \$109.25/month
(taxes extra)*

Included in every Puppy Plan: All Vaccinations your Puppy Needs

(up to three boosters)

- Every puppy needs preventative health care.
- Vaccines are essential to protect your pet against common diseases and infections.
- Each of our vaccine booster appointments include a comprehensive health examination to assess your puppy's overall health.
- Individualized risk assessment will be done to determine what your pet needs.

Fecal Testing

(up to two tests while enrolled)

- Fecal tests look for microscopic parasites, including giardia testing. Some of these parasites are not treated by regular deworming.
- We want to be sure your puppy, you and your family are safe from parasites!

Deworming

(three treatments)

- Deworming will not only keep your puppy healthy, but also protects you and your family!

Nail Trims

- Included with exams.
- Your puppy deserves a pedicure at each visit!

Heartworm & Tick-borne Disease Test

(once per year)

- These are serious and potentially fatal conditions that we want to detect early to enable early treatment.

Spay or Neuter Surgery

- Every effort is made to keep your puppy comfortable while they are with us for their surgery.
- Routine blood testing and monitoring is performed to help improve safety of anesthesia for your puppy.
- I.V. fluids are administered to encourage a speedy recovery.
- Your puppy will go home with pain medication to control inflammation and help them recover quickly. We will also see your puppy two weeks after their surgery to check the incision site.

Up to Three Included Health Exams

(for the year while enrolled)

- No need to wait when you have a concern about your puppy's health.

Note: Emergency after hour visits are not included.
